

CEWELD SA P-24

TYPE Vacume melted, medium alloyed, Creep resistant alloy for sub arc welding.

APPLICATIONS High temperature and creep resistant boilers, pipe work etc..

PROPRIÉTÉS Remarkable creep resistant micro alloy controlled alloy developed to offer high strength and creep resistant properties at elevated temperatures. Combined with flux FL 155 excellent slag release will be obtained in single and multirun application, the neutral action of the flux offers reliable chemical annalisis to ensure the best possible creep properties.

CLASSIFICATION

CONVIENT POUR Creep resistant steels , 7CrMoVTiB, P24/T24, ASTM A213, pipe steel, P24/T24, ASTM A213
